Re: Objection to Planning Application Variation – Reference: DM/25/1327

Dear Mr. King,

I am writing as the owner of the properties at 103, 103A, 105, 105A, 105B, 107A, and 107B to express my strongest objection to the proposed variation of conditions under planning application reference DM/19/3331.

The proposed changes would result in a significant loss of natural light to several of the properties listed above, particularly to the ground floor units at 105B and 107B. This reduction in daylight would be detrimental to the living conditions of the occupants, creating a dark and potentially unhealthy environment that would negatively impact their well-being.

I would welcome the opportunity to meet with you on site so you can fully appreciate the potential impact this proposal would have on these properties, especially at ground level.

Thank you for your time and consideration of this matter. I trust that the concerns of neighbouring property owners will be taken seriously during the assessment of this application.

Kind regards
