Dear Hamish,

Thank you for consulting the Flood Risk and Drainage Team regarding the above application.

We have no objection to the proposed development on flood risk grounds.

This is subject to the development incorporating all flood resistance and resilience measures set out within the flood risk assessment (CGS Civils. 16.07.2024.Reference C3275) , including finished floor Levels.

Due to the nature of the development (minor residential extension) drainage should be managed via Building Regulations/Control.

Best Wishes

Flood Risk and Drainage Team
Estate Services and Building Control
