ASSESSMENT

Design and visual impact on the character and appearance of the Listed Building

Policy DP26 of the Mid Sussex District Plan states (in part):

'All development and surrounding spaces, including alterations and extensions to existing buildings and replacement dwellings, will be well designed and reflect the distinctive character of the towns and villages while being sensitive to the countryside. All applicants will be required to demonstrate that development:

is of high quality design and layout and includes appropriate landscaping and greenspace;
creates a sense of place while addressing the character and scale of the surrounding buildings and landscape;
protects open spaces, trees and gardens that contribute to the character of the area;
protects valued townscapes and the separate identity and character of towns and villages;
positively addresses sustainability considerations in the layout and the building design.'

Policy DP34 of the Mid Sussex District Plan states (in part):

'Development will be required to protect listed buildings and their settings. This will be achieved by ensuring that:

- A thorough understanding of the significance of the listed building and its setting has been demonstrated. This will be proportionate to the importance of the building and potential impact of the proposal;
- Alterations or extensions to a listed building respect its historic form, scale, setting, significance and fabric. Proposals for the conversion or change of use of a listed building retain its significance and character whilst ensuring that the building remains in a viable use;
- Traditional building materials and construction techniques are normally used. The installation of uPVC windows and doors will not be acceptable;
- Satellite antennae, solar panels or other renewable energy installations are not sited in a prominent location, and where possible within the curtilage rather than on the building itself;
- Special regard is given to protecting the setting of a listed building;
- Where the historic fabric of a building may be affected by alterations or other proposals, the applicant is expected to fund the recording or exploratory opening up of historic fabric.'

Policy THP9 of the Turners Hill Neighbourhood Plan states:

'The Neighbourhood Plan supports development proposals within the built campus at Worth Abbey and School provided they:

Are sympathetic to the rural setting and to the listed buildings;
Recognise the impact any buildings may have on the High Weald Area of Outstanding Natural Beauty and are landscaped appropriately;

Enhance both the School's status and position as a major local employer; and
Enhance and benefit facilities for the Religious Order.'

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
