Good afternoon Caroline and Emily,

We have now collated the attached supplemental planning statement in response to the queries raised. We have used the same subject headings, for each item requiring additional detail. Although some of the requested records pre-date our involvement, we have obtained some evidence to support our assessment in each area. Please read our 'supplemental statement' first, with other attachments being cross-referenced into this text.

We will also attempt to send the stonework condition survey, but it is a very large file. The survey record is split into 5 building parts, with each part having 7 to 13 sections or 'lifts', each lift then with numerous photographs. Do let me know if you have a preferred method for such large data transfers?

Kind Regards
