North – Building line staggered with neighbour set forward of the application property (forward towards the garden)

South – Neighbouring dwelling with a flat roof single storey rear extension which appears to be the full width of the dwelling.

East – Existing rear elevation which has not previously been extended to the rear elevation through any additions.

West – Rear garden amenity space within a linear plot.

Streetscene – Traditional staggered estate style dwellings at set backs mirroring the curve in the road. Dwellings appear to have been extended to the rear through two storey additions in various examples.
