Subject: Non-Material Amendment to DM/26/1671 - Land East Of Wineham Lane
Wineham West Sussex BN5 9AY

[REDACTED]

Dear Sirs,

We Object to the above Application for a Non-Material Amendment as it appears that the proposal goes much further than a few amendments.

We objected to the original application and we are once again very concerned about the environmental impact of these so-called non material amendments on such a small rural village. These concerns are regarding the safety implications for all including fire and emergency access including the possibility of toxic gases escaping into the atmosphere so close to residents and the need for an acoustic fence and extra water storage tanks and also the noise factor.

There is also an Ancient Woodland very close by on its boundaries.
