**APPLICATION TO VARY APPROVED DRAWINGS ON PLANNING
APPROVAL NOTICE DM/23/2961
LAND EAST OF TURNERS HILL ROAD, FELLBRIDGE CRAWLEY, RH10 4HH**

Dear Sir / Madam

Following advice given by UK Power networks, the proposed position of the sub-station needs to change in order to provide adequate ground cover for the installation of the new electrical supply. It is therefore proposed that the position of the cycle store and the existing position of the sub station are "swopped". This change is shown on our drawing C222093 AL(9)901 revision C15. This application therefore seeks to amend the previous approved drawing no C222093 AL(9)901 Rev P-1 previously listed as an approved drawing under planning ref DM/23/2961.

The drawing also shows that the main access road surface adjacent to the car parking spaces changed from tarmac (As previously approved) to block paving. This is to align the drawing with the approved drainage drawing.

We hereby enclose the above drawings and trust that these are sufficient to replace the existing layouts subject to a period of consultation and agreement.

Should you have any comments or queries, please contact our office and we will be happy to assist.

Yours Sincerely
