Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: Further to my previous comments of 01/06/2026: regarding this application (updated plans); the small changes to the actual siting of the lockers (moving them to the left by a few centimetres) does not address any of those objections raised by me.

The appearance of the shop front has been altered significantly due to this installation by blocking a doorway and the architectural elements and symmetry of the building, which goes against the policy DP35 of MSDC. The application does not conserve or enhance any of the shop or the areas character.

The applicants own photographs of the installation attached to their application (L(02)101. P1) also shows a totally unsympathetic use of materials which do not blend in with the surrounding area.

The updated plans which you received on 29/06/2026 do not address any of the comments I raised in my original objections of 01/06/2026 or the objections I have made today.

Regards

Kind regards
