Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Negative points: Views of the downs will be obstructed. Access road will bring unsavoury characters close to the complex of houses. Health risk not ruled out with the interferences of these masts. Close to the ancient woods and can impact the owls, birds, bats

habitation in this area.

Add a "undesirable industrial element" to the area, which is already downgraded with the proximity of the bridge and railway and bypass.

Possible positives if accommodated:

If the hillside could be "Meadowed" and the access road made as a through road to unburden the Highbank access road then I would more convivial towards accepting the application. As the negatives would be balanced.

Kind regards
