Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I don't agree a huge lattice mast being built near our house and an area with a lot of families and a primary school. It will look extremely ugly, spoil the beautiful views on the small amount of land without houses that we have left in the area. We have not be consulted about these masts they emit radiation , are harmful to children., wildlife, can cause cancer. I am very worried about the long term affects these will have. The towers

already near us are producing very high levels of v/m2.
It can also cause Electrosensitivity with a huge list of symptoms.
they should be in fields away from housing. I strongly object.

Kind regards
