Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this application on two fundamental points: 1. The serious health concerns relating to 5G installation masts are very well documented and are particularly disturbing in respect of this Planning Application because it is for a mast very close to existing housing.

2. I have substantial visual concerns for building a mast 74' high where it will encroach upon views of the South Downs and close to the Ashenground and Bolnore Woods local nature reserves which attract many visitors and walkers, as well as the newly built properties in close proximity. In addition, the description of the actual site with chain link fencing topped by barbed wire is going to be just plain ugly.

Kind regards
