Morning,

Just the standard demolition/construction conditions are recommended then.

Thanks,

Hi Jane

Many thanks for getting back to me.

I cannot see any AC units or air pumps on the proposed plans.

Kind regards

Debbie.

Hi Debbie,

Hope you are ok.

I think my only recommendations with the above would be to regulate demolition/construction times, times for deliveries during the demolition/construction phases and a CEMP to control dust.

Are they going to put in any plant do you know i.e. air conditioning or ASHPs. If so, that might require a condition to control noise.

Please let me know.

Thanks,

Jane Cooper
