Reasons for comment:	
Comments:	This area cannot sustain the frenzied building of houses without the correct amount of 'associated' infrastructure. Not just a bit of insignificant 'green space'. We need the roads fixed, more parking near shops for the increased cars all these houses bring and masses more doctors and surgeries. Until I see the building of new water resevoirs, Mobile reception improved, internet connectivity improved, hospitals, schools and doctors surgeries and the roads fixed I cannot support any further

development of the area that is already groaning under the strain of the increased population.

Time for the council and councillors to hold the developers, or rather their wallets, to account and demand these resources before they build and walk away with the profit leaving nothing but more people clamouring for the ever diminishing resources.

Kind regards
