Dear Sir/Madam

I wish to object to the planning application DM/25/2104.

I have no issue with a wall being erected, it is just the sheer height of this wall. I had thought walls of this type had to be about 1 metre tall. I would be happy for homeowner to retain but at a reasonable height as current height is not very aesthetic. I do not like to object as encourage homeowner to improve plot (and no objection to house build) but the wall is not attractive e.g., like the wall 2 doors down at another development. Again sorry to object but the wall is not what I envisaged and not in keeping with greenery down the road (starting to look more like Dyke Road in Brighton). I am really pleased home owner has kept the bushes behind the wall at least.

Best Regards
