

Table 1

Old Rocky Lane hla 585 PS01					
Planting Schedule					
No	Species	Stock Size Trees as stated or (height in mm or as pot size in l (litres))	Density No of plants per m2 (spacing in mm)	Plant supply type (Rootballed, container grown or bare root)	Management comments (S = Sun, PS = Partial shade Sh = Shade)
General					
					All plants to have rabbit proof guards and staking and to be planted in accordance with the Planting Specification hla 585 02. All plant beds should be weeded annually, receive fertiliser and ameliorates as necessary for each plant and soil condition, and all ties and stakes to be formed up annually.
Trees					
					General tree management: Ties and stakes should be checked annually and loosened or removed to suit each tree. There will be some leaf drop (from the deciduous plants) each year and this should be removed to a mulch area.
3	Acer campestre (Field Maple)	10-12cm girth (height 2 to 3m), Selected Standard	1 (1000)	Bare rooted	Deciduous tree with paired, often palmately-lobed leaves and small flowers followed by characteristic winged fruits. Fine autumn colour, and some have ornamental stems. Prune only from late autumn to midwinter. S/PS, ultimate height >12m
3	Carpinus betulus (Hornbeam)	10-12cm girth (height 2 to 3m), Selected Standard	1 (1000)	Bare rooted	Broad canopy, fast growing, disease resistant (micro chipped). Will create overhanging avenue once established. Deciduous. S, ultimate height 15m
1	Ilex aquifolium (Common Holly)	>10l pot size (height 2 to 3m), Leader and laterals	1 (1000)	Rootballed	Evergreen tree with spiny leaves, small white flowers (male and female usually on separate plants) and, on female plants, showy berries in autumn. Prune only from late autumn to midwinter. S/PS, ultimate height 4- 8m
3	Prunus avium (Wild Cherry (Gean))	10-12cm girth (height 2 to 3m), Selected Standard	1 (1000)	Bare rooted	Round headed majestic bushy tree, flowers in April to May. Deciduous. S, ultimate height >12m
Native Understorey Mix					General Native Understorey Mix management: Ties and stakes should be checked annually and loosened or removed to suit each tree. There will be some leaf drop (from the deciduous plants) each year and this should be removed to a mulch area. All plant beds should be weeded annually and receive fertiliser and ameliorates as necessary for each plant and soil condition.
68	Acer campestre (Field Maple)	600-900mm	1 (1000)	Bare rooted	Deciduous tree with paired, often palmately-lobed leaves and small flowers followed by characteristic winged fruits. Fine autumn colour, and some have ornamental stems. Prune only from late autumn to midwinter. S/PS, ultimate height >12m
68	Corylus avellana (Common Hazel)	600-900mm	1 (1000)	Bare rooted	Deciduous tree with broad leaves, and showy male catkins in early spring, followed by edible nuts. Brutting or breaking sideshoots half way along their length in August followed by shortening the bruted shoots to 3-4 buds when the catkins are shedding pollen in late winter. When necessary remove up to one third of old overcrowded shoots to the main branches. S/PS, ultimate height >12m
23	Ilex aquifolium (Common Holy)	5l pot size (height 900-1200mm), Leader and laterals	1 (1000)	Container grown	Evergreen tree with spiny leaves, small white flowers (male and female usually on separate plants) and, on female plants, showy berries in autumn. Prune only from late autumn to midwinter. S/PS, ultimate height 4- 8m
34	Rosa canina (Dog Rose)	600-900mm	1 (1000)	Bare rooted	Small evergreen tree of rounded habit, with dense, linear leaves, insignificant flowers and, on female plants, conspicuous fleshy red arils surrounding the solitary seeds. No regular pruning necessary, but can be trimmed and shaped when required. S/PS/Sh, ultimate height 4- 8m
34	Viburnum opulus (Viburnum)	600-900mm	1 (1000)	Bare rooted	Deciduous shrub with opposite, palmately lobed leaves and clusters of small, often fragrant white or pink flowers, followed by red, blue or black berries. Fine autumn colour. Prune after flowering. S/PS/Sh, ultimate height 1-1.5m

Old Rocky Lane hla 585 PS01					
<i>Climbers</i>					
					General climber management: All climbers will establish along (Climber Training System (CTS)) as described on the Planting Plan hla 585 01 and the Planting Specification hla 585 02. The more vigorous plants are likely to need cutting back after 2 or 3 years, as necessary, to allow all climbers to establish
10	Clematis Armandi (Clematis) CA	150-300	3 (600)	Container grown	A large, vigorous evergreen climber with leathery, dark glossy green trifoliate leaves up to 15cm long. Single, fragrant creamy-white flowers 5-6cm across with creamy stamens, in clusters in early to mid spring.. Low maintenance. S PS, ultimate height >8m.
9	Hedera helix (Common Ivy) HH	2l pot	8 (350)	Container grown	Vigorous ground cover or climber. Evergreen. Low maintenance. Sh, S PS, ultimate height >15m.
15	Jasminum officinale 'Grandiflorum' (Catalonian Jasmine) JO	3l pot	as shown	Container grown	A semi-evergreen or deciduous woody, twining climber with compound glossy-green pinnate leaves comprising of 7 to 9 opposite leaflets. Has pink-tinged buds opening to very fragrant 5cm white flowers from summer to autumn. S PS, ultimate height >12m.
12	Lonicera periclymenum (Honeysuckle) LP	150-300	as shown	Container grown	Twining indigenous climber. Deciduous. Low maintenance. S PS, ultimate height >8m.
14	Parthenocissus tricuspidata (Boston Creeper) PT	150-300	as shown	Container grown	Very vigorous self clinging climber. Brilliant crimson and red leaves. Deciduous. Low maintenance. S PS, ultimate height >12m.
