Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Over development without infrastructure will create an area of enormous size without GPs, hospital services, educations services, social welfare, sewage processing as well as a county council without the funds to create roads that will always be needed due to the unsustainability in the area which will require car journeys for work, transport, schooling, dentistry and other medical services. Please consider this seriously... all the public authorities in the area will be presiding over massive deprivation with no services for the poor people that may choose to buy these

properties but may not as they will understand they will have a house but no properly supported life.

Kind regards
