Subject: My objections to Application DM/25/1593 Being passed

[REDACTED]

Dear case office

MY OBJECTIONS to DM/25/1593 application

Kiln road is already the main access road for traffic from the Burleigh estate and the Bramble way estate. Between the hours of 0700 and 0830 the road resembles a race track and the same 1600 to 1800. Traffic arriving from Grange road crossing over to Kiln road often are held up by parked cars and vans causing many issues to vehicles exiting the village.

The proposed access to the site seems to ignore the feelings of the residence of Woodland Close. Many elderly people who will have to accept noise and dust mud and pollution for many months.

Has anyone done a survey of the sewerage issues of Woodland Close, like Kiln Road, the substrator has been weakened by the rain flooded area adjacent to this junction. It only a question of time before the Carbon fibre drains collapse.

The village has no plans or adequate facilities to take further expansion. The school is over subscribed, the same goes for the Health Centre.

As a resident of Kiln road, I feel extremely angry that we were not advised officially and individually about this planned development.

Please accept this letter as a formal objection to this development.

Best regards

[REDACTED]
