

GENERAL ARRANGEMENT (1:200)

Hawthorn hedging to be provided, with timber fencing to match existing

PROPOSED SITE ACCESS

BISHOPSTONE LANE

6.000m

0 2 4 6 8 10m
1:200

The diagram is a site plan at a scale of 1:200. It shows a road labeled 'BISHOPSTONE LANE' running diagonally from the bottom left towards the top right. A dashed line indicates a 'PROPOSED SITE ACCESS' from the road into a grey-shaded area. Within this area, there are several rectangular shapes representing buildings or structures, and a dimension line indicates a length of '6.000m'. Two green arrows point from the plan towards two photographs on the right. The top photograph shows a close-up of a wooden post-and-rail fence. The bottom photograph shows a row of young trees planted in a field, likely the Hawthorn hedging mentioned in the text. A north arrow is located in the top left corner, and a scale bar at the bottom left shows distances from 0 to 10 meters.

Map showing the proposed site access location and visibility area. The map includes a north arrow (N) and a scale bar (0 to 100m). A dashed line indicates the proposed access route, leading to a shaded area labeled "PROPOSED SITE ACCESS LOCATION". A green arrow points to the access point. A green line indicates the "2.4m X 55m VISIBILITY" area. The map also shows the "ETL" (Existing Topographic Line) and the "Proposed Access Location".
