Dear Jessica

I cannot upload a response to Dave's representations but I feel it essential to put matters into perspective before those considering this application.

1. Dave erected the mast without permission
2. It is out of place for the residential garden particularly in a small village garden
3. The size of vast and it is a commercial aerial
4. Out of the 4 neighbouring properties, 3 have stated it is out of place and interfering with their signals. That is not just mobile signals but teams/zoom, WiFi, computer which are essential for work, health and socialising particularly where people are vulnerable.
5. My mobile phone signal is poor at the best of times and I am reliant on that poor signal together with internet to maintain my job. Due to terminal illness I cannot work in an office all the time and I work from home for 50-100% of the time
6. I am a lawyer undertaking key worker work involving remote hearings where I deal with children and financial matters. The signal is directly impacting my job and ability to work often cutting signals when I am on a CVP hearing to a judge. I have clients going through emotional states following divorce and loss of their children and my work, and the only income to my household, cannot be interfered with by an amateur hobby which presumably Dave could undertake elsewhere. The mast is not essential for his business
7. Due to my severe health and rare conditions, I must stay in regular contact with my team of 9 departments including my specialist hospital in Cambridge. That is being interfered with which is risking my life
8. Dave has filed letters in support from non neighbouring properties including one in another country.
9. The aerial is vast and can be seen by the roadside when extended. It is not the case as stated in his application that it is always retracted. He frequently leaves it extended and myself and other direct neighbours state it sways violently in the wind. He states it cannot be seen from my property and neighbouring that is not the case
10. Presumably he has arranged for the elderly lady his side to sign a document prepared by him in support. She does not use a mobile phone, internet and could not even locate his house a couple of weeks ago instead walking past his house to come to mine to "look for Dave"
- 11 the aerial should never have been erected. It is causing severe risk to my physical and mental health as well as impacting his other direct neighbours.
- 12 The police have spoken to Dave regarding his behaviour to me. That is on the police record and I believe this is a further example of his intimidation, harassment and pestering. The aerial impacts my right to family life, my income, my health and my ability to work and safeguard children

Hi Jessica

Thank you. I confirm the email this morning re the signal to my house and impact on my ability to work as a family lawyer should be treated as a formal letter of representation please. I am absolutely shocked that Dave has already had the aerial installed without permission and it is already causing such disruption to myself and my neighbours behind our rear gardens. I am under life sustaining care through Royal Papworth in Cambridgeshire undertaking treatment no local hospital can provide (nor can they carry the drugs to do so) and the interference with the signal to my home is now endangering my life. That can be included.

Subject: RE: RH10 4HA

Dear Kristy

Thank you for my email.

The letter of representation from 66 Squires Close has been received and submitted to the planning portal, but is awaiting redaction.

The Council have received updated plans yesterday and you will receive a letter in the post shortly relating to this and affording you a further opportunity to submit representations, if any.

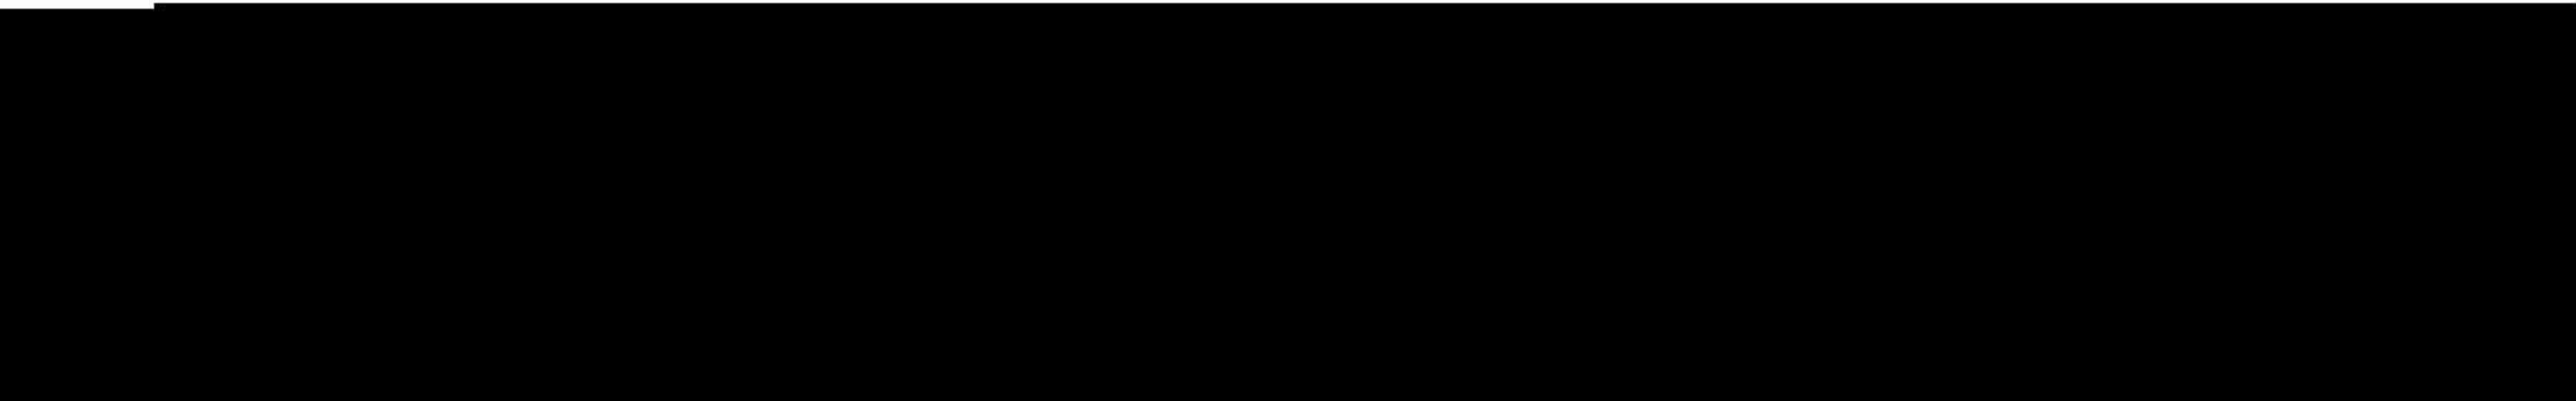

Please note that correspondence received, such as the email below, shall be treated as correspondence and not a formal letter of representation. Kindly direct all formal representations via the planning portal or if emailed to me, kindly state that it is a formal letter of representation, which will be submitted to the public planning portal.

Kind regards
Jessica

Jessica Szollosi Bcom, LLB (RSA)

Please note that this advice is given at Officer level only and is without prejudice to the formal decision of the District Council.

Working together for a better Mid Sussex

Subject: RH10 4HA

Dear Jessica

I understand 66 Squires Close objected prior to the deadline. This does not yet appear to be showing on the portal. I should be grateful if you would please check. I have having huge problems with my signal at home due to the commercial mast which has been erected which is impacting on my child protection work (I am a family lawyer). Due to the signal being affected, I am being forced to go into my office more (I am usually 2 days in the office) which is impacting my physical health as I have two terminal illnesses causing exhaustion in any event (pulmonary fibrosis and pulmonary hypertension) for which I have lifelong chemotherapy on a 6 monthly cycle.
