28 Holemans, Ardingly, Haywards heath. RH176UQ.

I am writing in opposition of this planning application. It will have a severe impact on the local wildlife i.e bird population which a lot of are endangered. We have a lot of deer badgers, pheasants, foxes and rabbits around this area and this will be detrimental to their habitat as it will be completely lost if there are 35 houses being built here. The noise level and disturbance will be absolutely awful for one, two or maybe three years while these houses are being built and the roads around the houses are being built. There will be a loss of privacy as houses will be built quite near to the housing estate where I live. There will be a very significant overbearing impact and loss of outlook to the local area. It will be a great intrusion into the countryside. Also to have 35 more houses put into this rural village that has no real infrastructure such as doctors, dentists any kind of decent shop of any size will be very detrimental to the village as most of these houses will probably be bought by people well out of the area they will probably travel out of the area to do any shopping of any kind so there will be little or no economic benefits to the village.
