Subject: Objection to Plannig Proposal DM/25/0709

[REDACTED]
Application No: DM/25/0709 Location: Plummerden House , Park Lane, Lindfield

[REDACTED]
I am writing to your planning department as I wish to object to the above planning application for the following reasons ;

The proposed development appears to be on too large a scale which I think is wholly inappropriate for an area of " outstanding natural beauty". The height and length of the buildings are huge, creating an unsightly visual impact.

I would question that such over development is necessary for a hobby and presume that this is probably going to become a business.

This is an area full of wildlife and flora and I fear there will be a considerable loss of open space.

I am very concerned that this current peaceful environment is going to become extremely busy and noisy, causing disturbance to my immediate environment.

I also fear that security lights and general activity will have a harmful effect to wildlife .

I am concerned that the development will be visible and audible from my house.

The plans and pages of proposals are not very coherent, with much mislabeling of buildings. It is with horror that I realise a separate application is to be made for a building right on my boundary.

My listed property is the nearest to the proposed development and there are no clear plans or photos showing my very close proximity.

Basically this development is on too grand a scale and is too near my property.

I feel very strongly that a planning officer should come and visit me to see for themselves just how inappropriate all these buildings will be.

My contact details are : Mob; 07986 598497 Landline; 01444 484289 Address; As above

I look forward to hearing from your Department very soon

Regards
