

LANDSCAPE LEVELS

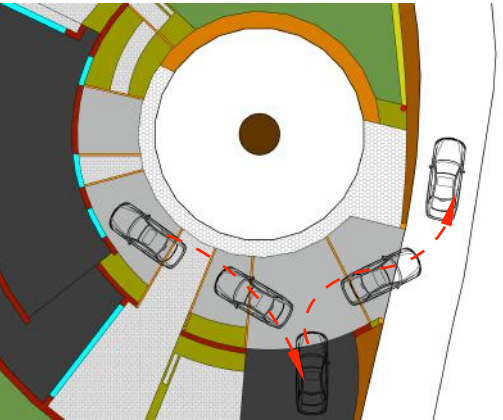

1. Levels - the intention of the landscape layout / design will be that all Areas are level with that of the internal floor finishes of the main residential Building or very close to that (+/- 100mm) / and to match those of the existing Landscape as it is currently, once cleared and graded. As such there are no specific raised or sunken sections across the landscape. For specific levels Regarding architectural elements or the existing levels please refer to relevant documents
