Hi Anna,

As requested, I attach 5 photos of the area where the vehicle crossover will pass, with the new fence panel and post in place, demonstrating that the land belonging to No. 2 Hamsland Cottages is avoided.

1. **Photo 1.** The pole you can see is in line with the fence / garden border and is next to the edge of the public footpath. I put the pole in this position simply to provide some perspective as to the 'overall width available' through which the vehicle crossover will pass.
2. **Photo 2.** Shows the distance from that pole to the new fence post, which is 4.87 meters. We don't need 4.87 meters, but I wanted to show you the available border endpoints.
3. **Photo 3.** Shows a distance of 3 meters between 2 bamboo canes. This would be enough width for the vehicle crossover and 3 meters (or even 3.5 meters) sits comfortably 'within' the overall width available, so that the vehicle crossover would not be too close to either end of the overall border available.
4. **Photo 4.** Is a close up shot of Photo 3 so you can see the tape measure distance and the gap this leaves to the new fence post.
5. **Photo 5.** Is taken from Lewes Road and shows the width of 3 meters to demonstrate that the vehicle access can still cross on to Lewes Road in the same position as originally planned, far enough away from the junction with Treemans Road / Sugar Lane.

I hope these photos are sufficient for your needs but if you require any additional pictures or information, or if you wish to visit the site again, just let me know.

Thank you

Bob
