Reasons for comment:	
Comments:	We have no objection to the variation of condition 3 of DM/22/0020 to replace the approved drainage strategy with an updated strategy. I would, however, like to correct an inaccuracy in the drainage strategy. In paragraph 5.5.3 it states that consent for the original design to discharge into the field opposite was withdrawn by the owners. This is not true and consent was never withdrawn. It was the

decision of the owners and the architects to pursue an alternative drainage package.

Kind regards
