Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	As neighbours on Tiltwood Drive, living directly opposite #26, we would like to go on record with our positive support for the retrospective planning permission request. We feel that the look and design of the wall is entirely appropriate for it's position, blending nicely with the driveway and the main residence behind. The height is fitting for it's location and in no way limits the openness of the road given that #28 Tiltwood is positioned at a significant offset angle compared to #26 and its side wall effectively closes off the corner as the road sweeps to the right. The long-standing side wall runs almost contiguous to the newly

built wall and looks in keeping.
The construction is neat and tidy and provides a clear boundary
with the public pavement without encroaching in any way.

Kind regards
