Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Writing as a property expert in the area (Joint owner of Jackson Stops, Mid Sussex) I am writing to entirely support this application. The property was in utterly dire condition when it was bought by the current owners. The Dougalls have renovated the house to the most exceptional standard and in the most incredibly sympathetic manner. The works both internal and external (including the grounds) have enhanced this listed building to the most astonishing degree (I am sure the council were more than

aware of its previous condition and appearance). Its place in the village and in the conservation area has been utterly transformed for the benefit of us all. These works along with recent works to other listed properties in the village have hugely enhanced our environment and made it a village we can be even more proud of. I trust the council will never create an environment where these fabulous listed homes are seen as simply too much hassle and stress to take on as this will assuredly cause incredible harm to their future existence and those people that wish to invest so much time and energy securing them for future generations.

Kind regards
