Subject: Planning Objection - DM/25/2473

[REDACTED]
Dear Sir / Madam

I am writing as a close neighbour of this development to object to the construction of the two new detached dwellings within the former school field.

Warninglid already experiences chronic water supply issues, including extended hosepipe bans and intermittent loss of pressure and / or supply. South East Water's infrastructure appears unable to reliably serve the existing population, let alone additional dwellings.

Furthermore, as highlighted in the recent newsletter from Warninglid Residents' Society, the local sewage treatment plant is at full capacity, with ongoing maintenance and waste tankage required.

Both water supply to and sewage demands from these additional residences would exacerbate already known problems.

Additionally, I am opposed to the loss of open space, and deterioration in the rural character and appearance of the site and village, that construction on the former school field would cause.

Yours faithfully.
Deborah Steele
