Re: Planning Application DM/25/0039 – Porch Revision.

Dear Stefan,

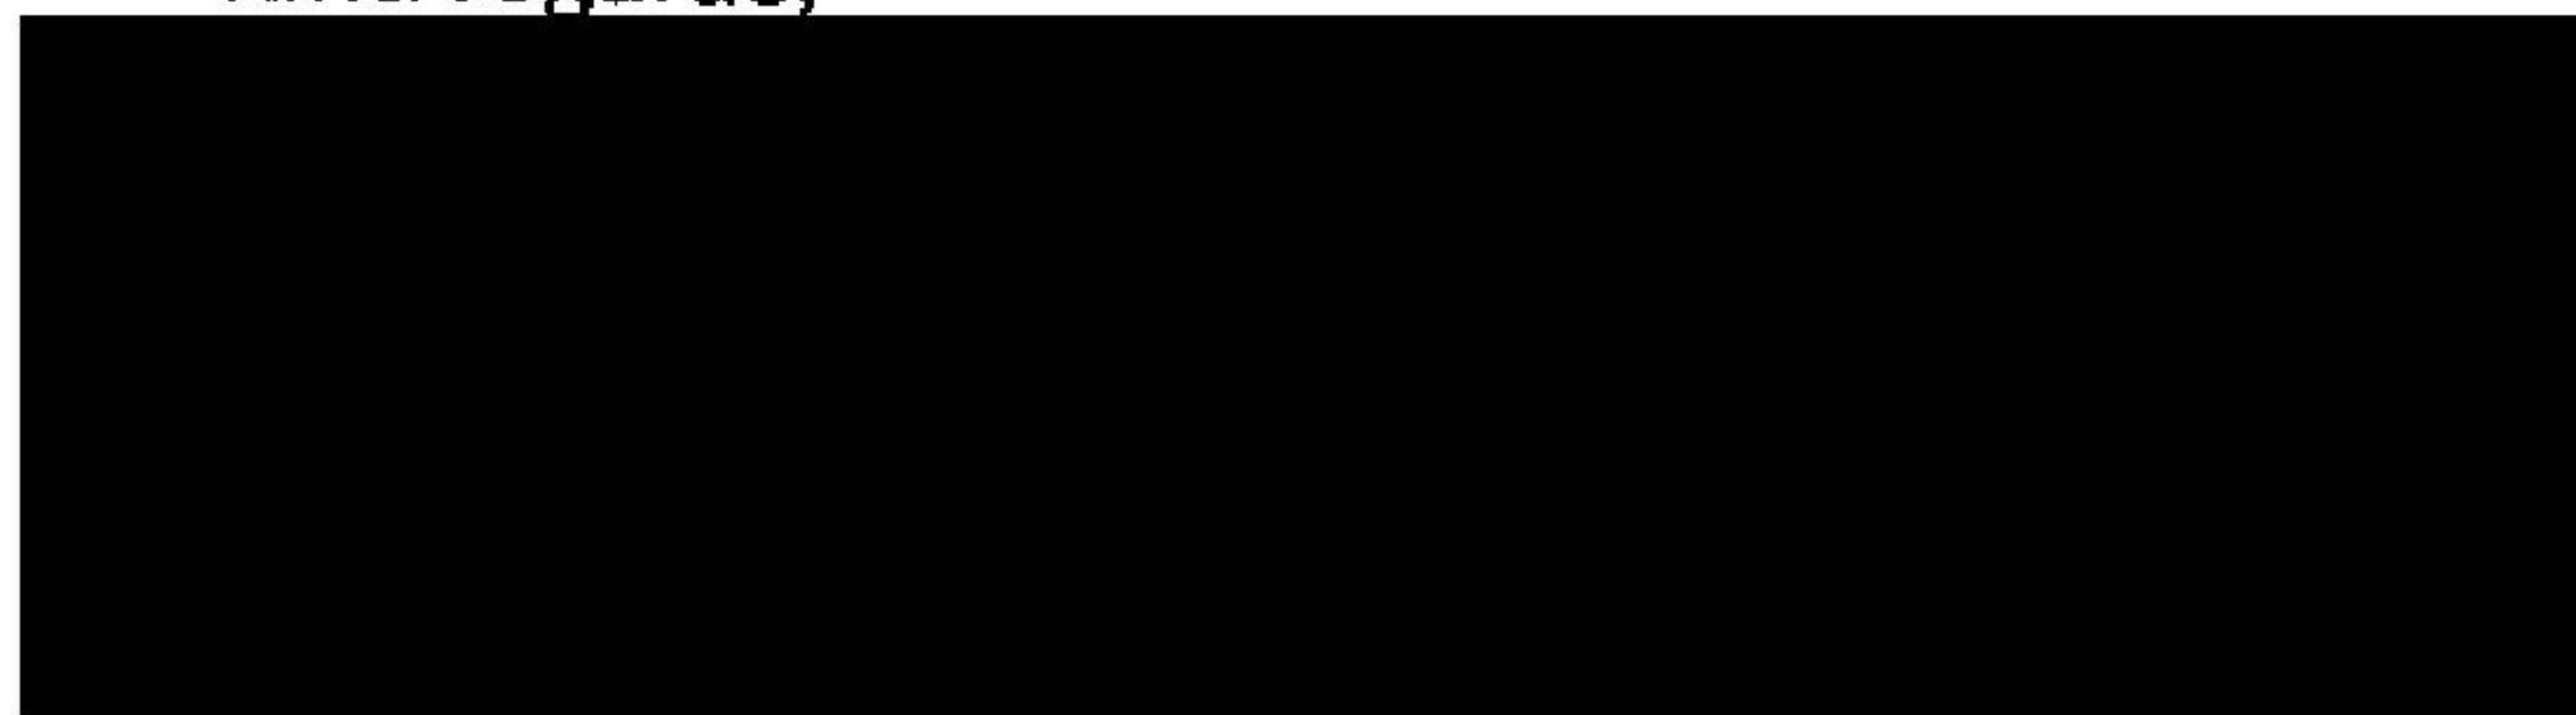

Please find the amended drawings and block plan hatched in blue.

As discussed, our client has removed the proposed first-floor extension over the front porch. We are hopeful this has lessened the bulk of the previously proposed front extension, and our clients wish to proceed with the enclosed proposal.

Our client also wishes to remove the flat roof over the porch and replace it with a small, hipped roof featuring a 30-degree pitch and tiles matching the main roof.

I trust this meets with your proposal. If you have any further queries about the above, please do not hesitate to ask.

Kind regards,

Peter Beautiman BSc MSc (Hons) ICIOB.
