[REDACTED]

I would like to formally object to the proposed telecommunication mast on Rocky Lane. As a 16 year old resident of the area, I am concerned about the impact it will have on the character of our neighbourhood, especially because the structure is large and visually intrusive. I am also worried about how close it will be to homes, schools, and public spaces that young people use every day, there is exercise equipment only a few meters away that I go to. While I understand the need for better connectivity, I believe this mast would negatively affect the appearance and environment of our community, and I ask that alternative locations be considered (no where near residential areas).
