Dear Graham

I have received the attached Drainage response for this application, see below. As you will see further supporting information has been requested, and a re-consultation will be required upon its receipt.

Please can you review these comments with your client and advise me if the required information can be submitted, and the likely timescale for the submission?

Thank you.

Regards

Anna Tidey

Dear Anna,

The Flood Risk and Drainage Team have reviewed the surface water drainage and foul water drainage information submitted in support of this application and can provide the following comments.

We consider that insufficient information has been provided to meet the minimum information requirements as set out in the MSDC Flood Risk and Drainage Information Check List – Application Stage - <https://www.midsussex.gov.uk/planning-building/flood-risk-and-drainage-for-planning/>

Following receipt of the information requested, we shall review and provide further comments on this application.

Receipt of the requested additional information does not mean further information will not be requested, nor does it guarantee that the Flood Risk and Drainage Team will not object to the development. Neither does it prevent the team from recommending a flood risk or drainage condition.

Best Wishes

Flood Risk and Drainage Team
