Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I do not believe that the local infrastructure is robust enough to support the addition of 50 families to the local area. The road condition is under stress and the roads in terrible condition with the current population. There is no pharmacy, no post office, no gp appointments available. I believe the addition of more people will put undue stress and strain on the existing population. There are constant power cuts, the water barely supports the current

houses. While I do support building affordable housing, I do not believe the housing is actually affordable to local families. Perhaps less than half the houses proposed would be more sustainable.

Kind regards
