Subject: RE: DM/25/0318 - Hickman's Lane Planning Application - Condition Discharge

Dear Paul

Thank you for your recent application which has the reference no DM/25/0318.

I have just spoken with the Tree Officer, Emma Rivett, regarding the discharge of Condition 7 of DM/24/1161 and we have reviewed your submitted application form and associated information.

It appears that the Method Statement and Tree Root Protection information is omitted from the application.

Please can you provide a detailed plan of the area that will be affected by the development of the external play area, marking on the extent of the area and the position of the trees adjacent to the pavilion and their root protection areas (RPAs). It will also be helpful if an existing and proposed cross section of that area is included to show any proposed reduction in ground levels and any RPA incursions which will result from the development.

We need a clear arboricultural method statement, ideally produced by a qualified arboriculturalist to explain how the trees and their roots will be protected during each stage of the development. Once we have this information Emma will be able to advise me whether I can discharge condition 7 of DM/24/1161.

I am aware that the material samples are awaiting my attention in the office and I will review these when I am next in.

I look forward to receiving this further information.

Regards
Anna

Submit your planning application online.

Hi

Please find attached the Form 40 duly filled out and my cover letter in relation the discharge of condition 3 and 7 to the above planning application.

With regards to the samples, where would you like me to bring them to? And can you please confirm the cost?

Regards
