Subject: DM/25/1196 Tree Removal at burgess hill school for girls

[REDACTED]
Good evening Irene

I read about this application online. There are about 25 trees being proposed for felling all of which seem to be either dead or severely diseased.

So I can understand why these trees need to be removed. However, with the exception of 2 or 3 where replacements are recommended there is no word about the rest. If this number of trees is cut down without replacement then eventually there will be no trees left at all.

I would like to see plans for replacement even if elsewhere on their estate.

Thanks
