North – Mature boundary planting is set to the north of the site with mature trees screening views towards the open adjacent fields.

South – Existing hardstanding and access to the site with a metal rail gateway nearby the front of the access. Mature hedgerows act as the front boundary treatment between the site and the roadside.

East – Neighbouring site at Parkfields Farm whereby a number of industrial scale buildings are positioned.

West – Neighbouring fields to the west of the site with some farm corrugated metal sheet roofed buildings set within this neighbouring field.

Streetscene – Edge of settlement location with a verdant character featuring boundary planting to the roadside edge with regular breaks between.
