Hi Anna

Please see attached to aid in the production of verified views for the above planning application. The applicant should note that the annotations on the map are approximate, for example they will need to walk the PROW to the north east of the mill to find the viewpoint suggested, although there may be others which are equally appropriate. I would also expect that common sense will be used and that the most open view of the site will be found in each case in order to give a fair impression of the impact of the proposal.

Thanks,

Emily
