Subject: Fwd: DM/24/2910 Planning Application 8 Newstone Cottages, East Street, Turners Hill

We noticed a few days before Christmas that the completed Planning Application form for the above plans was only submitted on the 18th December a month after the architect plans were submitted.

We can see no reference to drainage. No 8 is applying for a shower and toilet facilities so just to clarify can we be assured that this will not impact on the water and sewerage drainage system shared by the other Newstone Cottages. We have had problems with blockages at times.

With kind regards
