I am writing to object to the 6 houses being proposed to be built on College Lane. The lane cannot cope with any more traffic going down and up it. Ambulances and fire engines cannot get through at its busiest times due to Hurst College traffic. Some students walk to school down it so they would be in immediate danger from lorries and cranes etc going down it- it just isn't wide enough! The proposed building plot is vital for the wild life of Hurstpierpoint. I often see deer in gardens because they have no where to roam any more, birds have no where to nest because the the trees and hedges are being cut down. Save our wildlife! If these houses are built the village is being brought closer and closer to Burgess Hill . This will result I Hurstpierpoint no longer being a village but just part of Burgess Hill. Money should be spent on re- developing Burgess Hill rather than on more houses being built in a small village with no infrastructure to support them! I hope you consider the points I and others have made carefully. Many thanks,
