Subject: Re: DM/25/1605 & DM/25/1606: Durstons, Lodge Lane, Bolney

Hi Caroline

To clarify, yes there was an error with regard to how some of the trees have been referred to in the Arboricultural Survey.

Section 2.2.2 states G2/T4 should be removed. This is incorrect and is a transposition issue. As per the site survey, it should reference T2/G4. To be clear, there are no additional trees missing from the survey.

An additional clarification is that there is no request to remove T2 and that this was an incorrect observation during site survey.

Thanks

Dear Neil,

I am writing further to our previous correspondence, following the submission of the tree survey.

Comments have been received today from our Tree Officer, which I have attached in full to this email for your reference.

Clarification has been sought, as it appears that there has been an error in how some of the trees that have been referred to. Please can you confirm on this matter as, once this has been resolved, we can progress to formally determining the application.

Do let me know if there are any issues,

Kind regards,
Caroline
