Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	We are the only next door neighbour to 10 Sergison Close so the work will impact us most. We understand the work will take a minimum of 6 months. Whilst being supportive of the development, and accept that spring and

summer of 2025 will not be as peaceful as normal, we wish to put limits on the disruption, particularly as my wife is in poor health.

As already mentioned to Paul and Karen:

1. We accept there will be noise but could we request no radios blaring all day. Also an avoidance of bad language which we find offensive.

2. We would like working hours to be Monday to Friday 8 a.m. to 5 p.m. so at least the peace is restored during evenings and weekends.

3. Space for parking in the close is limited so we would ask for consideration in not blocking driveways.

4. Advance warning of anything causing dust to come our way.

Just to confirm, we are supportive of the development.

Kind regards
