Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	We object to this variation of condition that is essentially planning creep. If the business activity is not commercially viable without 24 hours access and no restrictions on traffic volume or vehicle type they should relocate to a science or industrial park and not situate themselves on a narrow, rural C-class road. Excess commercial/industrial traffic, especially overnight, would

have a clear impact on local residents, pedestrians, cyclists and wildlife on a road that is already well over safe capacity at peak times.

Kind regards
