[REDACTED]

Dear Sir/Madam,

I live at 1 Marwick Close, Ansty and would like to object to the above planning application on the following grounds:

Ansty is a hamlet with only a garage for supplies and a poor bus service three times a week. Building a development of 33 houses is going to mean another 50 cars turning onto an already extremely busy A272 road where the 30mph speed limit is rarely kept. Heavy lorries constantly take this route across the county and more traffic means more accidents. The infrastructure for water and electricity cannot support more houses - we get almost daily power cuts and water shortages. This is an area of outstanding beauty, a development would destroy yet another green space and would be an intrusion into the countryside.

Yours faithfully
