Hi Steve,

Thanks for sending this over.

The additional WSIs (covering the SANG area and the area of sport pitches) are acceptable and suitably outline an appropriate method of archaeological work in these areas.

Accordingly, I can recommend that Condition 33 Part 1 is discharged as relates to the area of the SANG, the sports pitches and the residential area (i.e. the areas outlined in these submitted WSIs).

The area of the proposed neighbourhood centre (in the south-eastern corner of the site) has yet to have a WSI submitted encompassing it, and so I recommend Condition 33 Part 1 should be maintained in this area.

Any questions just let me know – if you want this outlined in a formal letter just say.

Kind regards,

Mark

Hi Mark

I've received the attached e mail from the applicants and have added the revised documents onto the file. It doesn't seem to make a difference to your previous comments of 26<sup>th</sup> February but I'd be grateful if you could confirm that this is the case.
