Comments Details

Comments: Lindfield Parish Council objects to this application; considering that this bright, moving image screen is totally inappropriate given its high-profile location within the Village's Conservation Area and its potential distraction to drivers negotiating the hazardous Lewes Road / High Street junction. Further, that the display will appear even more unsuitable during the longer hours of darkness in the winter months, both in terms of its distraction and likely light pollution.

If it is to be allowed, its operation should be restricted to daylight hours, the display change intervals should be extended to greater than two minutes at a time, and its light output set at an appropriately subdued level.

Kind regards
