Subject: Fwd: DM/25/1495 - Planning Application Objection

You don't often get email from [REDACTED] [learn why this is important](#)

Dear Sirs,

As per your request, my address is South Street Mews, South Street, Cuckfield, RH17 5JY so that you can register my comments (below) on the online register for me. Thank you.

I have been made aware of this planning application to install a cabinet for 5G at Rocky Lane, Haywards Heath and I wish to place an objection. I am not aware of being consulted in any way about the erection of the mast and cabinets.

The ground for my objection are that not only is a 22.5 metre mast extremely unsightly, but that the noise, heat, and EMFs emitted from the cabinets will also have a negative impact on health at a cellular level of plants, animals and humans in close proximity.

What considerations have been given to health and safety and can you provide unequivocal proof that no harm will be caused? It is the duty of our councils to take health into consideration and should be put above that of commercial gain. Is the proposed mast and its cabinets compliant with the ICNIRP guidance?

Yours faithfully,

[REDACTED]
