

Drainage Implementation Plan

68-70 Keymer Road,
Hassocks,
West Sussex,
BN6 8QP

80% of the drainage will be installed during the groundworks phase of construction. Weeks 5 to 10 of the construction programme.

The remaining 20% of the drainage will be installed towards the end of the programme during the external works, hard & soft landscaping phase. Weeks 47 to 52 of the construction programme.

All drainage will be completed prior to first occupations.
