Dear Jessica Szollosi

I seem to recall writing this before . I am delighted with the appearance of the Spratt's fence and trellis and their associated planting , it adds elegance and beauty to the Wilderness . They know how to make a place look smart , just take a look into their garden and you will see perfection . I sincerely hope the fence ,trellis and plantings will be left well alone and save the council much needed money for many other important projects .

Yours sincerely
