Dear Mr Woodfield

Thank you for your email, which I received last week, and for the supporting weather bar information. I am glad that your supplier is able to fix this feature to your replacement windows, to ensure a consistency in the window appearance on the building.

[REDACTED] You may be aware that the Decision Target Date for your application, as issued on validation of your application, is next Monday, 26th January 2026. For your information on my review of your application file on return from the Christmas/New Year break I found that some of the neighbouring residents had not been appropriately notified by letter of your application. The remaining letters were sent out on 5th January 2026 and their 21 day consultation period (as printed on these notification letters) also expires **next Monday, 26th January 2026**. **A Decision on your application cannot be issued until that date has passed.**

I am intending to recommend that your application is approved. I shall be grateful if you can agree to a short Extension of time for my recommendation report to be viewed by Senior Officers and for the Decision Notice to be issued to **Wednesday 28th January 2026**? Please can you confirm your agreement to this short extension by return email.

I look forward to hearing from you on this matter at your earliest convenience.

Thank you.

Regards

Good morning Miss Tidey,

Thank you for your response to our application. I forwarded it onto our supplier who has replied with the attached email with specifications of the window bar to be fixed to the new upvc windows. I trust this would be sufficient to allow the application to be approved?

[REDACTED] As soon
as the issues with the timbre windows were spotted, we endeavoured to get them changed but this has been a long process. I would appreciate that, if this email is sufficient, the case is then approved as quickly as physically possible [REDACTED]
[REDACTED] If there are other issues with the application, please can these all be sent at once to be resolved so as the work can be undertaken quickly?

I appreciate your understanding.

Many thanks,
