Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Approximately 11 acres of open grassland would be destroyed, including the homes of lots of wildlife, already displaced from the previous development of Gatesmead. My family, many neighbours and I use this open green space daily with nothing in such close proximity like this space. The green spaces that are becoming few and far between are at risk of then being overused as they become highly concentrated. In turn putting at risk the wildlife in these spaces. Local infrastructure is already under great pressure, GPs there is

a huge wait to get an appointment, local schools and drainage are also already under huge strain. More houses (additional to plans already approved for houses in the area) will only add to the, at times, almost failing services.

Kind regards
