Dear Caroline,

I have reviewed the Arboricultural Impact Assessment (AIA), Arboricultural Method Statement (AMS), Tree Constraints Plan (TCP), and Tree Protection Plan (TPP), for this proposal.

I note that no trees will be lost to facilitate the proposal, that there will be some minor works to trees to facilitate access to the site and that there are some incursions into the root protection areas of some of the trees. The AMS demonstrates that these trees will be suitably protected by the methodology therein, and that an Arboriculturalist will be present on site when any sensitive works is carried out.

I have no objection. Please condition adherence to the AIA, AMS and TPP.

Kind regards

Emma
