Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The area for this development is by the most dangerous junction adding even more traffic and danger to the school and residents. This is a project of pure greed no one in the village actually wants this. As a resident in the historic protected area of homes, the

design of the homes aren't at all in keeping with the village architecture and the landscaping plans don't do anything to replace the huge natural habitat which is filled with deer and other animals and insects. How this can even be put through council this far is just shameful with clearly no care for the safety of our villages children crossing our roads or any of the current residents having more pollution traffic and accidents added to an already at capacity junction

Kind regards
